# JAVA WITH JDBC

# FINAL LAB

# USER'S TABLE WITH DATA LAYER AND CONNECTION POOL

# FINAL LAB

- Final lab with user table:

- Add to the latest lab of user's table, the use of connection pool with JDBC. This is the final lab of this course.

# CONCLUSION OF THE JAVA WITH JDBC COURSE

- We hope you enjoy this course as much as we did.
- We studied most of the JDBC topics that you will need in real world, but this is just the beginning, in the courses that will come we'll put into practices the data layer that we learned, and the design patters like DAO and DTO that we studied.
- We wait for you in the following Global Mentoring courses, and see you soon ☺
