EXERCISE

BLUEJ INSTALLATION

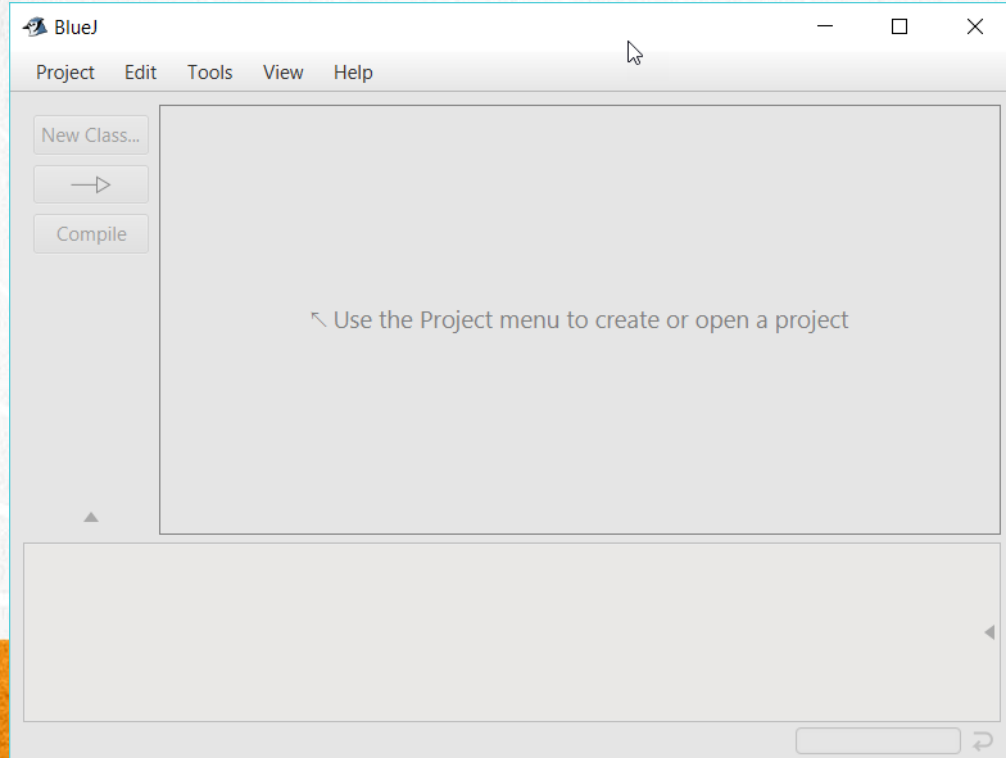

JAVA FUNDAMENTALS COURSE

www.globalmentoring.com.mx

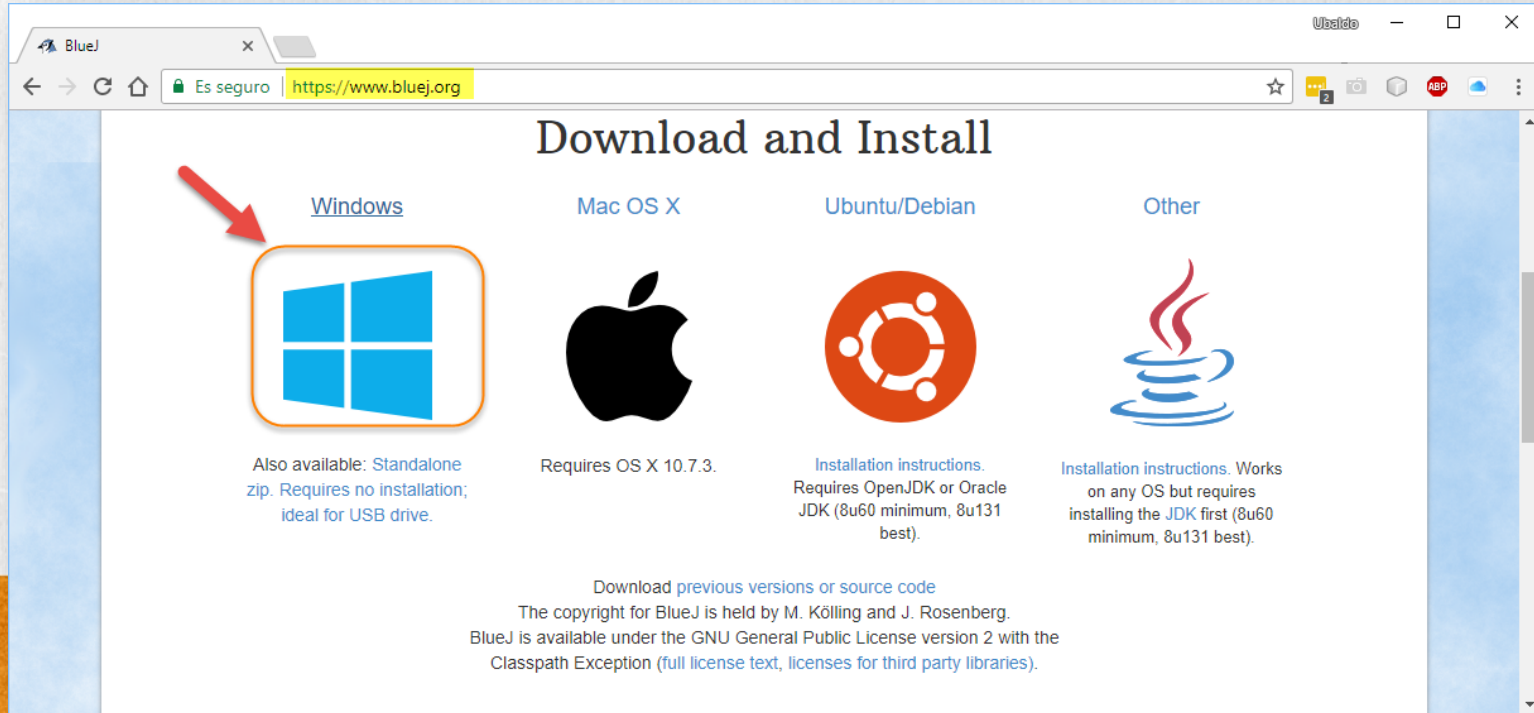

OBJETIVO DEL EJERCICIO

The goal is to install BlueJ. At the end we should observe the following:

1. DOWNLOAD BLUEJ

Download blueJ from [bluej.org](https://www.bluej.org). We select the option that we need, according to the operating system that we have :

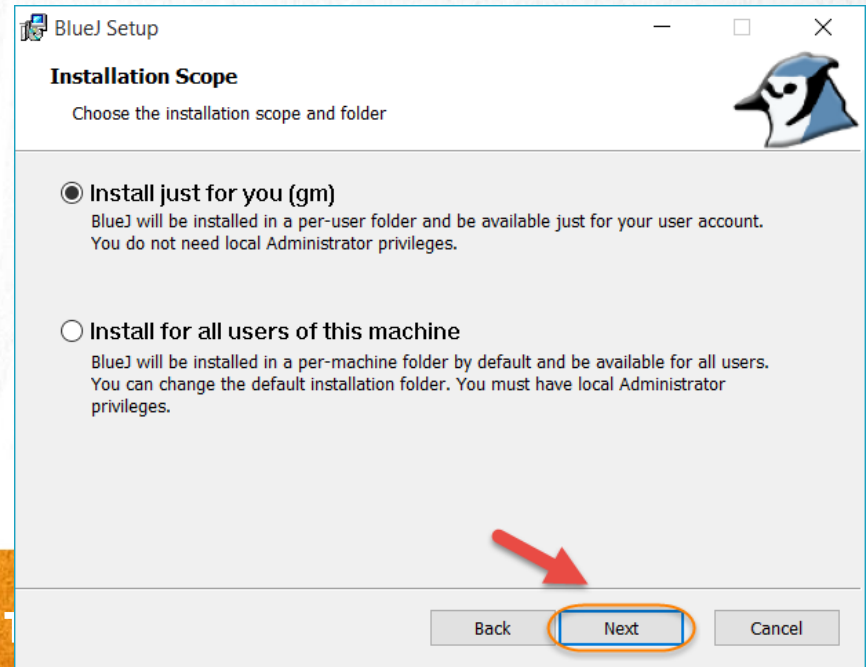

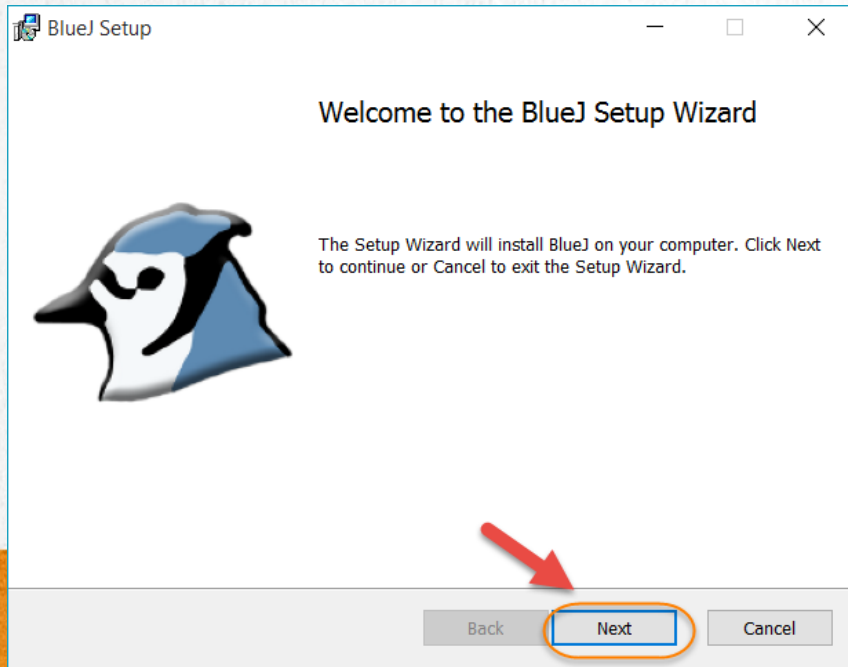

The screenshot shows a web browser window with the URL <https://www.bluej.org>. The page title is "Download and Install". It features four download options, each with a logo and a description:

- Windows**: Represented by the Windows logo. A red arrow points to this option. Below the logo, it says: "Also available: Standalone zip. Requires no installation; ideal for USB drive."
- Mac OS X**: Represented by the Apple logo. Below the logo, it says: "Requires OS X 10.7.3."
- Ubuntu/Debian**: Represented by the Ubuntu logo. Below the logo, it says: "Installation instructions. Requires OpenJDK or Oracle JDK (8u60 minimum, 8u131 best)."
- Other**: Represented by the Java logo. Below the logo, it says: "Installation instructions. Works on any OS but requires installing the JDK first (8u60 minimum, 8u131 best)."

At the bottom of the page, there is a link to "Download previous versions or source code" and a copyright notice: "The copyright for BlueJ is held by M. Kölling and J. Rosenberg. BlueJ is available under the GNU General Public License version 2 with the Classpath Exception (full license text, licenses for third party libraries)."

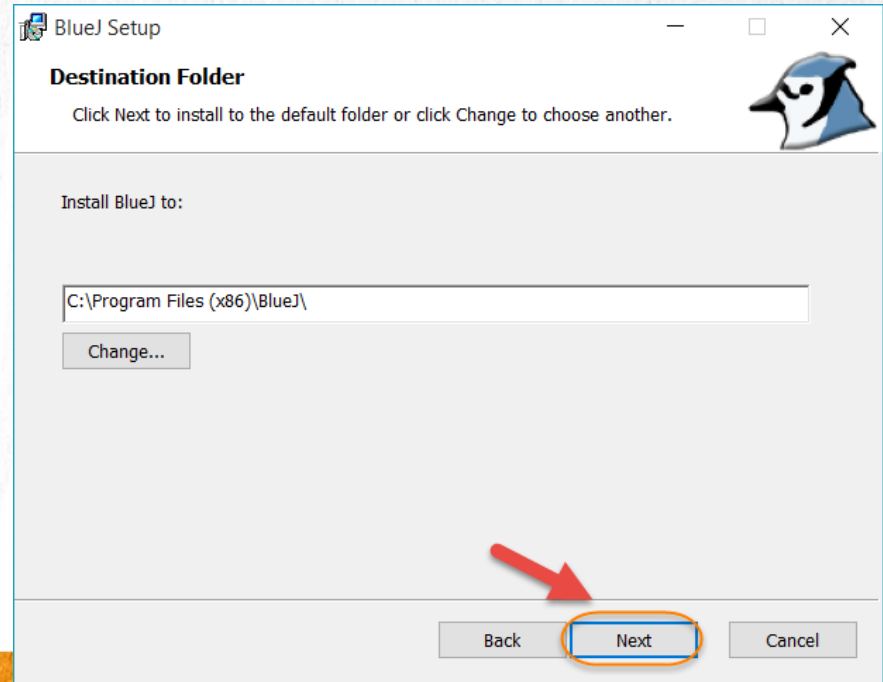

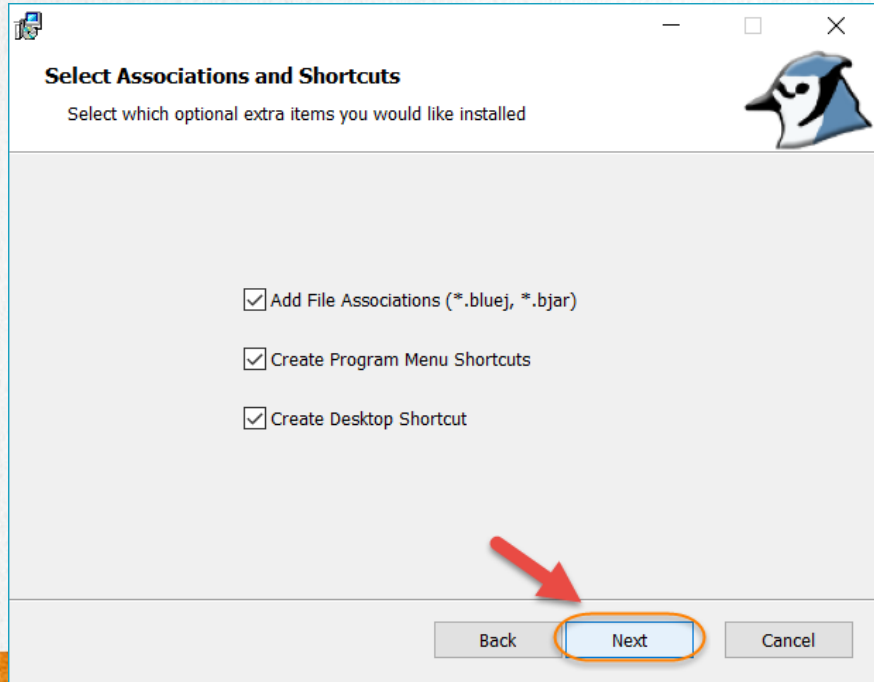

2. BLUEJ INSTALLATION

We double click on the downloaded file. We follow the steps described below :
