# WEB SERVICES RESOURCES

The Web Services theme itself is quite broad. However, in these lessons we have left the bases to understand the steps, good practices and architecture that we can find in the Java projects in which we work.

Then we leave some resources that we hope will be useful in case you want to delve into the topic of Web Services, both for SOAP and REST Web Services. Here is the basic reference:

<https://javaee.github.io/tutorial/>

<https://javaee.github.io/tutorial/partwebsvcs.html#BNAYK>

**JAVA EE COURSE**

[www.globalmentoring.com.mx](http://www.globalmentoring.com.mx)

# SOAP WEB SERVICES RESOURCES

- The SOAP Web Services (JAX-WS) topic reference is as follows :  
<https://javaee.github.io/tutorial/jaxws.html#BNAYL>
- JAXB reference :  
<https://javaee.github.io/tutorial/jaxrs-advanced007.html#GKKNJ>

# RESOURCES FOR REST WEB SERVICES

- ✔ Official Documentation of Jersey and REST Web Services:
  - The documentation of the Rest Web Services theme is the following:
    - <http://icursos.net/cursos/JavaEE/ebooks/jersey-documentation-2.0-user-guide.pdf>
    - <https://javaee.github.io/tutorial/jaxrs004.html#GILIZ>
  - For a more in-depth study of the HTTP protocol and its methods, the following links can be consulted:
    - [https://www.w3schools.com/tags/ref\\_httpmethods.asp](https://www.w3schools.com/tags/ref_httpmethods.asp)
  - JAXB reference:
    - <https://javaee.github.io/tutorial/jaxrs-advanced007.html#GKKNJ>
