

JAVASERVER FACES COURSE

TOOLS INSTALLATION FOR JSF

By the expert: Eng. Ubaldo Acosta

JAVASERVER FACES COURSE

www.globalmentoring.com.mx

EXERCISE OBJECTIVE

Install the tools that we will use throughout the JavaServer Faces Course.

At the end we will have installed all the tools that we will use throughout the course.

JAVASERVER FACES COURSE

www.globalmentoring.com.mx

1. WE INSTALLED JAVA AND NETBEANS

If you still do not have the Java JDK installed, you can follow the following guide:

<http://icursos.net/en/Installations/CJ-B-Exercise-01-JDK-Installation-windows.pdf>

If you still do not have the Netbeans IDE installed, you can use this guide:

<http://icursos.net/en/Installations/CJ-B-Exercise-02-Installing-Netbeans-Windows.pdf>

JAVASERVER FACES COURSE

www.globalmentoring.com.mx

2. INSTALL GLASSFISH

Netbeans already has a Glassfish option installed, however for better control over the server or any problem with any version, we recommend separately download Glassfish and associate it with the IDE that is being used.

Download Glassfish:

<http://icursos.net/en/Installations/CJ-B-Exercise-05-InstallingGlassfish.pdf>
